The Folder "Analyses Experiment 1" contains the following elements:

R-Project "Experiment1.Rproj"	All content within the "Analyses Experiment 1" folder is grouped in this R-project. This project should be opened initially (all following content will be grouped within this project).
(1) Folders	
Folder "recs_INCL"	Contains Textfiles with Eye Tracking Data from all included participants: • One File per participant (*N* = 32) • Textfiles are raw-files, recorded and exported with Tobii Studio (version 3.4.8.1348)
Folder "util"	Contains utility functions
Folder "Preprocessed Tables"	Contains pre-processed tables generated with *"PREPROC_script_Experiment.R"* script • One File per participant (*N* = 32) • Used for statistical analyses in *"STATS_Experiment1"* script.
(2) Tables	
overall.data.csv	Overall.data table created with *"STATS_Experiment1.R"* script. Contains all tables of folder "Preprocessed Tables" in one merged table.
(3) R Scripts	
PREPROC_interface_Experiment1.R	Project Interface • sets directories • sets AOIs • Defines naming patterns of event-names and look-up strings for util functions
PREPROC_script_Experiment1.R	Pre-processing script of eye tracking data • Uses raw-data from recs_INCL folder • Processes and filters the data • Creates pre-processed tables used for statistical analyses (written in "preprocessed tables" folder)
STATS_Experiment1.R	R-script containing all main analyses and exploratory analyses from Experiment 1
